REPORTED INDIAN OUTRAGE DENIED .- Indian Agent Tatum, of the Kiowa agency, says the report printed in the New York papers some time since of an attack on Blackburn's train, thirty miles east of Fort Sill, the killing of seven teamsters and the capture of the remainder, is without a shadow of foundation in fact. He says no depredation has been committed by the Indians in the vicinity of Fort Sill for over a year past.

THE REPORTS as to the inability of the European syndicate to comply with the terms of their agreement in regolating the new loan are without the least foundation in truth, as no such information has been received at the Treasury Department. On the contrary, the letters from Europe show that everything is progressing satisfactorily, and the syndicate thus far have comblied strictly with the terms of their agreement. The reports of collapse were evidently gotten up by some one to influence the market.

THE CATACAZY UNPLEASANTNE'S .- A semiofficial statement on this subject, just publishedamount's briefly to this :- In June last the recall of Hinister Catacazy was r quested by President Grant. The Czar solicited that he be tolerated until the visit of the Grand Duke Alexis had ended, and to this the President acceded, slipulating, however, that if Catacazy was not then recalled home, his passports will be sent him and that, in the meaname, he will not be received, except in the company of the Grand Duke. The President and Secretary of State hold neither personal nor official communication with the Russian Minister.

Work of the Printing Eureau of the Treasury.

The report of Mr. George B. McCartee, Chief of the Bureau of Engraving and Printing of the Treasury Department, for the fiscal year ending June 30th, 1871, has been transmitted to Secretavy Boutwell. The report shows that there have been completed and delivered by the bureau perfect bonds, notes and securities amounting to \$890,483,995.00, and 104,140,286 perfect customs and internal revenue stamps; also sundry other work for the bureaus of the Department, amounting to \$35,576.64. There has been paid to the American, National and Continental Bank Note Companies, of New York, for printing, \$648,689.91, and to the Adams Express Company, for the transportation of partially printed bonds and notes from New York to Washington, \$45,550.90. The legal tender notes of the first issue have been almost entirely replaced by those of the new issue, or "Series of 1869." Mr. McCartee says:—"The adoption of the Localized and Distributive Fibre' paper now used in printing the bonds, notes, securities and stamps has, without doubt, afforded the government and the public very great security and protection against counterfeit and unlawful issues. During the fiscal years ending 30th June, 1870 and 1871, about sixty millions of sheets of special or colored fibre paper have been received and used in printing the government securities and revenue stamps, without the loss of a sheet or a part of a sheet.

or a part of a sheet.

On the 20th June, 1870, there were employed in this Bureau 962 employes, consisting principally of engravers, transferrers, plate and surface printers, cutters, machinists, examiners, counters, trimmers, separators, needlers, and press hands. On the 30th June, 1871, the number was reduced to 741, owing to the decrease of work. In general, my assistants and employed have been faithful and attentive to their duties and the interests of the government. and the interests of the government.

It affords me great pleasure to be able to state that, in the engraving, printing, and finishing of \$890,483,995 of notes, bonds, and other securities and 104,140,286 stamps, during the year, not one note or sheet of paper, or any portion of a note or sheet of paper, has been lost to the government."

Loss of Life-Sufferings of the Survivors-Whole Towns Swept Away by the Flowes-Great De-ST. PAUL, MINN., Oct. 6 .- The great prairie the slight rain of yesterday arrested its progress a little for a time. Its course is southeast, and up to last accounts it had reached nearly as far ath as the Iowa border, and as far eastward as the Minnesota river, which, it is hoped, will stay its further progress. The high wind of yester-day drove the fire forward with lightning day drove the fire forward with lightning rapidity, and it was burning fiercely in the big woods around Glencoe, Leseur, Mankato and New Ulm. Reports of the ravages of the fire fiend are coming in constantly, though they are evidently exaggerated. The losses so far are positively known to be confined to houses, barns, fences, hay, wheat and live stock. Only two lives are known with have been lost, that of a Swede named Conto have been lost, that of a Swede named Conneaut, of Kapniyoht county, and a man, name unknown, who started from the same county with a drove of cattle for Fort Geary and was overtaken by the fire. There are no means of ascertaining the amount of damage done, owing to the large tract of country over which the fire swept and its inaccessible nature, but it must be very heavy. Many small towns have been completely descroyed, and solitary farm houses in the track of the fire have almost invariably been burned to the ground. The amount of suffering must necessarily be great, as many farmers have lost everything, homestead, live stock and crops, with a long winter close upon

The Episcopal General Convention.

Baltimore, Oct. 6.—In the Episcopal Convention this morning, service was read by Rev. Drs. Payne of Albany, and Craik of Kentucky. Dr. Schenck, from the committee on corporation of Bishops, submitted a report and resolutions approving the testimonials, and consenting to the consecration of Rev. Wm. Bell White Howe, D. D., as assistant bishop of the diocess of North Carolina, which were accepted and adopted. Dr. Haight, of New York, 100m the committee on canons, submitted a report on proposed amendment to section 1, canon 10, title relative to ministers ordained in foreign countries. The intention of the amendment which was offered by Dr. Franklin, of Indiana, was to give the clergy of the mother church of England the same rights in every parish of the church in the United State that our own clergy enjoy. The committee re-ported the proposed amendment inexpedient.

Falls Church, Va., Oct. 6, 1871.

Editor Ster.—Do not say I am an enthusiast in saying that the Creater never smiled through the surshine on a pin sainter or more salubations locally than this. I am as second as a cucamber as I write it. I think it is largely the fault too of the propic here themselves that it (this hamlet) is not a staring, flourishing beautiful town of some hundreds of inhabitants. Enterprise would have accomplished it ere this. The place has needed, first, a good wagon road with the three terrible hills between your city and here graded down, and second, direct railroad communication with your city. The compromise terms between the Fairfax and Georgetown Turnpike Company and some of its dissatisfied stockholders has been signed by all parties needed to make it a verity or a reality, save one; and it is to be hoped that that one will be obtained soon. The matter has been dragging unexpectedly long, natter has been dragging unexpectedly long, but beller accomplished late than not at all.

A time-table, to suit the business community on the two railroads between here and your city, on the two railroads between here and your city, has been a n.ccssity for a long time. This lack of a proper one has hindered settlement greatly. A couple of petitions, one to each road, were circular d seme month or two ago, requesting a joint time-table to remove the public inconvenience of time out of mind, at least, since the roads were constructed. Mr. Stevens, of the Weshington, Alexandria and Georgetown railroad, respended, with commendable alacrity and promptness. "Yes, gentlemen, if the Washing en and Ohio radiroad will adopt such a time-table as you request, I will run trains to cornect." Mr. McKenzie, president of W. & O. R. R., premised to consider the request, with a disposition to accommodate the petitioners if possible. He has, by his superintendent, in a new time table, to take effect October 9th, a new time table, to take effect October 9th, complied with the request of the petitieners, and it is expected that Mr. Stevens will arrange the running time of his trains so as to make close the running time of his trains so as to make close connection at the junction of the two roads with the W. and O. When this is done, people on the line of the latter road will be able to reach Washington as now, at half-past eight z. m., and leave at half-past three p. m. It will be a most convenient arrangement for the entire business community residing in the parts of Virginia adjacent to Washington, and every man coming in daily should avail himself of the facilities of transit to and from here thus offered.

Political matters here are quite too dull to promise success to the republicans, THE TRIAL OF MRS. WHARTON REMOVED TO THE TRIAL OF MRS. WHARTON REMOVED TO ANNAPOLIS.—In the Criminal Court of Baltimore yesterday, Mrs. Wharton, charged with murder by poisoning, was brought into court, and made affidavit before the clerk to each of the suggestions for the removal of her cases, (which had been previously prepared by her coursel and signed by her,) as follows:

"In the Criminal Court of Baltimore, September term, 1871.—State of Maryland vs. Elizabeth G. Wharton.—No. 222:

ELLEN G. WHARTON." The court then directed the record in the cases to be certified to the Circuit Court of Anno Arundel county, the next term of which com-mences at Annapolis on the fourth Monday in October. Mrs. Wharton's appearance indicated feeble health. She was dressed in deep mourn-ing and closely veiled. She will remain in cus-tody of Sheriff Albert and Warden Irving until

The other day several of them made a sally. Near the salo in door was a little boy whom one of them recognized as her son, and questioned, "Oh, Charley, do you know where your papa is?" "Why, of course, ma," was the answer; "he's in here playing marbles, and has got such great big orcs." A hurried dive into the billiard-room followed, the sound of female voices, pitched in a high key, was heard, a sheepish-looking man emerged, and a family party took up the march. emerged, and a family party took up the march

No American custom excites more surprise and amusement among traveling foreigner than that which is known in our saloons as "treating," and which consists in the reciprocal payment, by each member of a convivial party in turn, for the "re-reshments" consumed by the "crowd." That this custom leads to great excess there cannot be a doubt, annihilating true temperance among those even who would only drink moderately or occasionally, if left to their own volition. It is very clear that the disuse of this fashion would have greater practical effect in diminishing the vice of drunkenness than scores of prohibitory laws.

While the number of emigrants from Ireland has fallen off greatly of late, the supply from England has greatly increased. Fifty thousand persons have left the port of Liverpool during the last three months—5,000 more than left during the corresponding period last year. This shows how general the discontent of the masses of the English population is becoming, and involves a fact to which Gladstone and the rest would do well to give head. would do well to give heed.
